DEPARTMENT OF ENVIRONMENTAL PROTECTION
NORTHWEST REGIONAL OFFICE

May 4, 2012

[REDACTED]

Re: CID NO. 278982

[REDACTED]
Section 3218 (b) 2012 Oil and Gas Act Determination
Pleasant Township, Warren County

Dear [REDACTED]

The Department has investigated, in response to your November 23, 2009 complaint, the possible diminution of your water supply caused by nearby oil and gas activities.

After reviewing the results of your well water analysis and conducting an extensive investigation, the Department has concluded that recent oil and gas activity did cause the diminution of your water supply. As a result, Allegheny Enterprises was required to replace your water supply by drilling a new well and installing a water treatment system. Recent water test results have shown that your water meets all current drinking water standards. Because of this, the Department is closing this investigation. Thank you for your patience in this matter.

Enclosed are the complete water sample analysis results and a fact sheet to help you interpret the report. If you have any questions, or if any future issues arise, please contact Rick Mader at 814.723.3273.

Sincerely,

S. Craig Lobins
Regional Oil and Gas Manager
Oil and Gas Management
