Re: Act 223, Section 208 Determination  
Complaint No. 258625  
Limestone Township, Clarion County

Dear [REDACTED]

The Department has completed its investigation concerning your September 26, 2008, complaint that your water supply had been affected by gas well drilling activities at the Armstrong Gas Company, LLC, [REDACTED] gas well [REDACTED] and we have determined that your water supply had been affected by the aforementioned site.

Our determination was based on information gathered from site inspections, documented timelines, gas and water well records, area geology, and our sample results.

As you are obviously aware, Armstrong Gas Company, LLC, had initially supplied you with a temporary water supply and subsequently drilled you a replacement well. A sample taken at your residence on January 6, 2009, from the new well is comparable to a pre-drill sample taken on April 2, 2008.

I am including all sample results and related information with this correspondence. If you have any questions or further concerns, please contact me at the above-listed number.

Sincerely,

Chad A. Meyer  
Water Quality Specialist  
Oil and Gas Management
