Dear [REDACTED]

The Department has investigated the occurrence of natural gas in your water well. This investigation has resulted in a determination that the drilling activities of Snyder Brothers Inc. are responsible for the pollution of your water supply.

As you are aware, the Department issued an Order to Snyder Brothers Inc. to restore or replace your water supply. It is my understanding that you have been provided with a copy of that order.

If you have questions, please contact me.

Sincerely,
