Re: Complaint No. 269055  
Act 223, Section 208 Determination  
Kingsley Township, Forest County

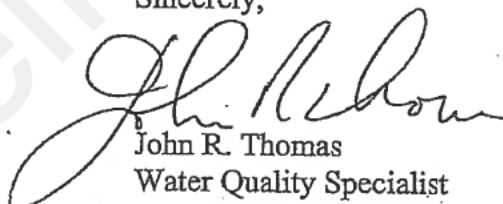

Dear [Redacted]

In response to your complaint of February 3, 2010, the Department has investigated the possible contamination of your water supply by oil and gas activities.

The Department has determined that your water supply was affected by oil and gas activities conducted by Catalyst Energy, Inc. The water quality of your spring appears to be returning to pre-drill levels. The Department will continue to monitor your spring and will keep you informed.

Enclosed are copies of your water sample results. If you have any questions, please contact me at the above listed number.

Sincerely,

  
John R. Thomas  
Water Quality Specialist  
Oil and Gas Management
